

# SIZE CHART RIDING BOOTS

## HOW TO MEASURE

Measurements should be taken wearing riding pants and the socks you normally use.

The size of the foot is the one you usually wear. Refer to the European measurements.

By standing position with the leg slightly bent, measure the height of the boot «H» from the floor to the highest part of the leg. To this measurement you must add 1cm to maximum 1,5cm as the boot will lower after wearing it.

By standing position, measure the calf in the widest point by keeping the meter in horizontal position and keeping its tension nor too tight and not too large.
